Cybersoft

Implemented scripts for finding concatenations and constants in Java projects in order to localize existing system.
github.com/onatbuyukakkus/Localization

📅 June 2015 – July 2015   📍 Izmir, Turkey

Internet Assesor
Yandex

Worked on web search evaluating. Deciding relevancy, quality and freshness of websites, images and videos according to queries.

📅 August 2014 – December 2018   📍 Freelance

EDUCATION

M.Sc. in Computer Science & Engineering
Technical University of Denmark
TEV - Garring Foundation Scholarship
3.49/4.00

📅 August 2017 – Ongoing   📍 Lyngby, Denmark

PROJECTS

</> Instagram Follower
A web application for tracking friendships on Instagram using private API.
- Java, RESTful, JMS, MDB, Wildfly, Jenkins
- github.com/onatbuyukakkus/instagram-follower

</> Kolkata
A fast pay mobile application backend developed with test driven approach.
- Java, RESTful, JMS, MDB, SOAP, Cucumber, Wildfly, Jenkins
- github.com/onatbuyukakkus/kolkata

</> EduSys
Education tracking system powered with deep learning and image processing.
- Python, OpenCV, Java, JavaScript, HTML, CSS, Hibernate, PostgreSQL, RESTful, Apache Tomcat
- senior.ceng.metu.edu.tr/2017/squ4re
- github.com/onatbuyukakkus/EduSys

</> News Classifier
Automator for classification of news topics.
- Python, Tkinter, TextBlob
- github.com/onatbuyukakkus/newsClassifier

</> Exiled to Wild
Multiplayer surviving web game.
- Python, Django, JavaScript, HTML, CSS, MySQL
- github.com/onatbuyukakkus/exiledToWild
